THE TEHRAN PAPERS

11 - 12 December 2006

Bernhard Schaub

Honoured Hosts, dear Guests,

I would first of all like to thank the Islamic Republic of Iran, its ministries and scientific institutions, in particular however, its president His Excellency Dr. Mahmud Ahmadi-Nedschad, for making possible this conference for researching the Holocaust here in Teheran.

We recall the year 1943 when Teheran was forced to be the location of the conference of Roosevelt, Churchill and Stalin - the representatives of those powers responsible for the suppression of the freedom and sovereignty of the nations, namely American-British capitalism and Soviet Bolshevism, both under the inspiration of world Zionism.

It is therefore highly significant that today, under the truth-loving and God-fearing Iranian government, it should be attempted to bring light into the darkness of black propaganda, a propaganda which Germany has been immersed in (after having been rendered defenseless) for the past sixty years, and which has been used to build the moral basis for the expulsion of the Palestinians out of their homes and which has been used to justify the creation of the state of Israel.

In addition to these few introductory words, I would also like to call to mind the spiritual and cultural connection between Persian and German culture:

One of the most important music-poetical creations of the German spirit - Richard Wagner's grail-drama "Parsifal" - had its name inspired by the Persian expression for the "pure Fool", the innocent one. The philosopher Friedrich Nietzsche placed his philosophy into the mouth of the great Persian sage Zarathustra. And Goethe, in awe of the medieval Persian poet Hafis, wrote a whole volume of poetry under the title "West-Eastern

Divan". I would like to cite two verses from this work, which could aptly serve as a motto for our conference as they express divine justice:

To God belongs the Orient!
To God belongs the Occident!
Northern and Southern lands,
Rest in His eternal Hands.

He, the only truly Just,
For all desires Right.
Of his many hundred names,
May He be praised! Amen.

* * *

Honoured Guests, as you all know we are part of a mighty political struggle, one which is at once also a spiritual struggle of historical and global importance. It is a struggle between Truth and Lie.

In all cultures and religions Truth is one of the highest values. Both in religion and science, as well as before the courts, the quest for truth has the highest priority. He who denies the quest for truth and places the searchers for truth under fire, has something to hide - has a bad conscience.

And you can be sure, honoured ladies and gentlemen, the Western democracy has a bad conscience, and it has something to hide. If democracy truly were a "rule of the people", as it pretends to be, then democracy would not fear Revisionist research. The truth hurts nobody, except the liar. Thus, the mere fact that the West destroys the reputation of the Revisionists via the media, financially ruins them and imprisons these researchers, is a token of the fact that there must be something wrong with the gas-chambers and the number of the victims. If the representatives of the Holocaust theory have superior arguments in their hand, then they would engage in a public scientific debate, relaxed and certain of victory.

Instead of this, the rulers of the West have placed the Holocaust under a complete taboo, with help from the media, education system, politics and the judicial system. They have withdrawn the Holocaust from all controversial debate and have made the belief in the Holocaust a type of enforced European-American religion.

The purpose of the "Auschwitz-cudgel" (Martin Walser) is to frighten and knock down anybody who merely discovers the machinations and power-games of Jewish high finance and their vassals, e.g. if he asks why Benjamin Shalom Bernanke, the successor of the Jew Greenspan as head of

the Federal Reserve Bank is again a Jew. He, however, who dares to revise the common historical picture of World War Two and the German concentration camps, and who asks unusual questions (this being the very meaning of the word "Revisionism!") is attacked by the media with the foulest term there is: "Holocaust denier". This term is nasty and hateful because it not only contains refutation of the Holocaust, but because it suggests a refutation contrary to better knowledge. They therefore imply that the Revisionist historians lie on purpose, whenever these doubt the gas chamber murders.

At the same time, it is made impossible for the public to inform itself on the current arguments, because the press, radio and television exclusively deliver Holocaust propaganda, and because Revisionist works are not sold on the commercial book market, due to fear of the press and judiciary. The scientific explications and conclusions of the Revisionists are stubbornly ignored by the scientific community, whilst the media are quick to warn of the Revisionists' "low quality pseudo-scientific work".

This shows us, that the Western political system panics at the mere idea the Holocaust could prove to be a fabrication, and the American-European apparatus of rule defends itself with all force possible against a public debate.

Why?

He who discovers a lie, will sooner or later inquire about the liar, his motives and purposes. When it one day becomes evident that the gas chambers, and thus the millions of gas chamber murders are an invention then too, with absolute certainty, the question will arise: Who thought up such an ugly and vile lie? And what kind of group of un-humans has by these means secured the power to not only militarily conquer but also morally incarcerate for all time a great cultural nation - the Germans and their Reich.

The French author Roger Garaudy pointed to one of the essential reasons with the title of his book *Les mythes fondateurs de la politique israélienne* (¹) ("The Founding Myths of Israeli Politics" ²): The moral justification for the foundation of the Zionist state in Palestine.

But this is not all of it, and it is not even the most important point. The decisive point is the cementation, not only world-historically but more so in a religious dimension, of the idea that the Jewish people have a singular status of being victims. This places the Jews in a position where they are morally untouchable. It is basically postulated that this nation has attained a semi-divine status through its immeasurable suffering, and that it is thus

² <http://www.aaargh.com.mx/fran/livres/RGfounding.pdf>

outside of any critique and therefore has the right to behave towards its opponents as it sees fit.

This is not only true concerning Israel and the Palestinians but also concerning the whole "Western community of values", i.e. this is also true at least for Europe and North America and thus for the traditionally Christian areas. Whoever criticizes the Jews is considered an anti-Semite. And since the anti-Semitic National Socialists are said to have killed 6 million Jews in gas chambers, anti-Semitism is the worst thought-crime committable.

It is not at all necessary that the normal European or American is aware of the thoughts described above on a day-to-day basis. This conclusion is, owing to sixty years of non-stop brainwashing, so deeply imbedded that it has become a reflex, almost an instinct, in particular amongst the academically educated layers of society. This is the reason why the Holocaust-belief was able to subtly expand into the Holocaust-religion, inclusive of everything that belongs to a religion: martyrs, holy sites, feast days and rituals of remembrance. The Christian Churches above all - it must be said to their shame - have subjected themselves to the new Zionist world-religion.

Religion, however, not only needs a god and his chosen people, but also a devil with his chosen people. Thus just as Yahweh and his Jews represent the aspect of light, so Adolf Hitler and National Socialist Germany represent the dark side. It is beaten into the heads of the Germans that they are the offspring of the Devil of that time, and that they must atone for the sins of their fathers for all eternity. And at present almost all Germans believe this.

This is the reason why it is so incredibly difficult to initiate an objective debate about Revisionist theories in the German-speaking countries. But not only there: Zionist propaganda has swept through the whole of Europe and America and has deeply implanted the new religion in the heads and hearts of these people.

Within the Holocaust-religion, not only criticism of the Jews (anti-Semitism) belongs to the mortal sins, but also the healthy self-consciousness of a nation, known as nationalism, as well as the desire of a nation to keep itself alive, known as racism and xenophobia.

With the aid of this new belief and this new catalogue of sins, the world-Zionists (of which the Israelite Zionists are only a small part) are able to extend their power into the unpredictable. Their mightiest opponent, the German Reich was defeated in two world wars, and now they stepped forth to their believed monarchy. According to plan culture, tradition and morals were destroyed step by step in Europe (but also

amongst those who believed they were victors e.g. the English and French) until nothing remained of the proud Occident than a decadent rabble.

But within all the self-content cleverness and cunning of the Zionists they made a fatal, unforgivable mistake: They built their empire on a lie - the Lie of the six million gassed Jews.

And now they are trembling in fear of the truth. Not because they have scruples. This type of people lies totally scrupulously. It is because they are afraid of their subjects all over the world, who they have exploited and mocked. For not all Europeans have subjected themselves to their new lords and fallen on their knees before them. There are valiant fighters for the truth in all countries, namely the Revisionists. They are the ones standing trial, sitting in jail and driven into poverty, but they fight. The heroes of freedom, Arminius and Wilhelm Tell are not dead - they live on in the best men and women of all nations.

It is for these fighters that we founded the Society for the Rehabilitation of those Persecuted for Refuting the Holocaust - VRBHV (Verein zur Rehabilitierung der wegen Bestreitens des Holocausts Verfolgten) - in Germany on the 9th of November 2003, the anniversary of the fall of the Berlin Wall. Leading Revisionists from all over the world as well as publicists and sympathizers belong to this society, whose board of representatives is made up of Ursula Haverbeck, Arnold Höfs and myself. Our leading lawyer is Horst Mahler, who is currently in jail and his colleague Sylvia Stolz. Even the "Reports of the Federal Office for the Protection of the Constitution" of the Federal Republic, as well as the system's media acknowledge that we are the leading Revisionist society in Germany (*Westfalen-Blatt*, 13.11.2006).

Our struggle is fought on two levels: Firstly in the courts, where the accused and the defense counsels try everything to breach the wall of judicial opportunism and system submissiveness. I would here like to call to mind the current trials against Ernst Zündel and Germar Rudolf.

Secondly, we are increasingly bringing our arguments to the attention of the public. After we were forced to realize that our writings and books have successfully been kept outside the public's awareness, that a scientific discussion is being avoided and that the judges are continually passing inquisitional sentences due to stubbornness and cowardice, we have decided for actions aimed for the public at large. In Switzerland, Westphalia, Berlin, Mannheim and hopefully soon in all German speaking countries fliers are distributed in order to educate and enlighten the citizens. I personally am confident that we can break through the phalanx of our enemies in this manner: the people on the street must begin to doubt these false myths. Then the pressure against the media will start to rise, followed by pressure against the courts and finally the politicians.

We may consider a great step forward the fact that the Swiss Minister for Justice, Dr. Christoph Blocher recently stated that he desires to remove the offence of denying genocide from the penal code, and that a little later his party, the Swiss People's Party (SVP) decided to discuss initiating a referendum with the aim of completely abolishing article 261 Penal Code, the so-called "anti-racism law". Even though these are merely declarations of intent, these are promising signs.

Let us never forget: Man, if he is at all human, will always want to know the truth. He despises the Lie. And this is something we can build upon even if in the meanwhile, we make many bad experiences.

But of course we need support. We need courageous co-workers, we need money, we need connections to influential people and we need every type of direct and indirect help for our struggle including help from foreign countries.

It is for this reason that we consider it a gift from God that the courageous and wise Iranian president, and with him a whole row of political and religious superiors of Islam have taken on the battle against the Holocaust myth.

We European strugglers for Right and Truth here want to call out to the Islamic realm: We have the same enemy! It is the corrupter of humanity who with the help from his American battle-elephant desires to subject the entire world to Jewish capital, and who desires to destroy all sovereign nations, cultures and religions until nothing is left but a faceless mass of spiritually and mentally inferior slave workers, there to toil for Zion.

That must never be! We will fight the enemy and his lies and liberate ourselves - so help us God!
